

**FASTER - BETTER - MORE ERGONOMIC WELDING**

## Adapter borehole system to T-slot system

Use your existing clamping devices for borehole systems on FÖRSTER welding tables.

### Advantages

Cost reduction and sustainability:

Our adapter allows you to continue using your existing clamping and fastening means for borehole systems on our T-Slot system.

### MODELS

The adapter is available in steel (for machining steel and other metals) and aluminium (for machining stainless steel).

We offer both variants as D16, D22 and D28.

Each adapter comes with 2 groove stones and 2 screws.
